

Columbus FAASTeam presents:

REQUEST FOR STUDY PARTICIPANTS - OSU AIRPORT - See Attachment

Participants will ride along with a flight instructor in an OSU aircraft or ground vehicle along a runway at The Ohio State University Airport and make observations about different Linear LED Lighting configurations. You will make 8 runs and your total effort will take about 2 hours from beginning to end. This event will start on Monday May 16 weather permitting. If we have to cancel because of rain, the session will move to the following evening. We will complete two evenings next week. Activities will begin at 8:00 pm. Each participant will be allocated a 2-hour time slot starting between 7:30 and 10:30 pm to be briefed and perform observations.

Directions: After turning into the OSU Airport driveway, follow road around to Hangar 5. If you are interested in participating or have any questions please contact Una Blanus at Blanus.1@buckeyemail.osu.edu. Please see attachment for additional info.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
